

Merchant Assurance Policy

What we promise to do:

We are committed to providing our customers with honest merchant processing at competitive rates. If you are offered a deal that sounds better than ours, call us. We will analyze it based on your actual processing history. We are confident in our ability to be competitive and will show you a side-by-side comparison to prove it.

If during the term of your merchant processing agreement with us, you receive a legitimate written offer—which includes all applicable rates, fees and charges, including without limitation, monthly fees, discount fees, surcharges, per item fees, among others, that would result in you paying less per month for your merchant payment processing—**we will meet or beat that offer or pay you a merchant assurance fee of \$100.***

We will provide a quick cost comparison on what you currently pay and how it stacks up to any competing offer. Please call our corporate office at (844) 692-2422 toll free. Thank you.

You have nothing to lose!

*Nothing herein modifies the terms or your merchant processing agreement with us, including without limitation, amounts that may be due upon termination.
